PROFESSIONAL EXPERIENCE

Information Systems Technician

2024 - Present

Policía de Puerto Rico, Comandancia de Arecibo | Arecibo, PR

- Serve as the lead systems technician for the Arecibo Region, covering 15 precincts, districts, and stations along the route from Quebradillas through Morovis and Ciales, ensuring consistent IT support and technology standards across the entire zone.
- Manage the regional technology inventory end to end, including creating receipts, organizing equipment records, and maintaining accurate documentation and asset control.
- Serve as the primary liaison between end users and other technicians, coordinating requests and verifying that completed work meets operational and technical standards.
- Travel to Police Headquarters (Cuartel General) to request technology equipment and resources, keeping the region's technology up to date.
- Deploy standardized system images across workstations, reducing setup time and ensuring configuration consistency region wide.
- Administer Active Directory user accounts and Microsoft MFA Authenticator, enforcing access controls and cybersecurity policy compliance.

Help Desk Technician – Tier I

Telemedik | Guaynabo, PR *July 2024 – November 2024*

- Provisioned and managed Active Directory user accounts, configuring appropriate role-based access for healthcare personnel.
- Delivered remote technical support via phone for software, hardware, and connectivity issues, maintaining high customer satisfaction scores.
- Deployed standardized system images across multiple workstations, streamlining onboarding and reducing IT overhead.
- Tracked and documented support tickets, enabling trend analysis and ensuring timely incident resolution per SLA standards.
- Trained incoming IT staff in department procedures, best practices, and ticketing protocols, accelerating team ramp-up time.

B2B Field Service Technician

Liberty Business Puerto Rico | Cupey, PR *February 2024 – May 2024*

- Supported corporate and enterprise clients during a major carrier migration (AT&T to Liberty PR), ensuring seamless service continuity for business accounts. Performed mobile device unlocks, plan changes, SIM replacements, and equipment upgrade per client requirements.

EDUCATION

Master of Science in Cybersecurity *2026*

Universidad Ana G. Méndez – Cupey | GPA: 4.00

Bachelor of Science in Computer Science *2024*

Universidad Interamericana de Puerto Rico – Arecibo | GPA: 3.24
